Frequently Ask Questions and Best Practices

Did you know that there is a FAQ page on the “[Staff](#)” pages of the NARM website? We recently added this page to help our member institutions quickly find information they need. If you have a suggestion for the FAQ page please let us know.

And speaking of frequently asked questions— we have received numerous emails from your members who either have not yet received their membership card and plan to travel or who have forgotten their membership cards while traveling.

We always recommend that the member contact you for more information on receiving a temporary membership card, but have not heard how you provide this temporary identification. How do you provide a temporary identification? Do you have any recommendations for those who may not have a solution yet?

We also receive numerous bounced emails and, occasionally, lose contact with institutions completely. This is very unfortunate, and we try to help make transitions seamless by having a secondary contact, but these are often changing as frequently as the primary contacts. Do you have a transition process in place that helps reduce lost contact information? Would you like to share that process with us?

We always appreciate your input and hope that you will contact us with any thoughts you might have to help make NARM even better in 2017!
