

## The Next Big Thing!

The North American Reciprocal Museum (NARM) Association is nearing the 700 member mark and with it, the biggest request from NARM member institutions is almost complete — a new NARM website!

Currently under construction, NARM's new website will feature each member institution on a map which will geolocate on users locations to show NARM institutions within their area. Every NARM institution will have a unique profile which can be edited to include photos, videos, a description of mission, operating hours, contact information, and more.

We have also been working with a professional artist to create a new NARM logo, one that represents the mosaic of incredible institutions that make NARM! We will unveil this fresh new logo with the NARM website soon.

We know these changes will help NARM and each of NARM's member institutions by presenting a vibrant and growing organization to our North American audience. And remember, we are always open to new ideas and suggestions for promoting NARM.

Watch for more news this summer as we prepare to launch the next big thing!

## Digital Membership Cards Are Here!

Have you seen the latest in membership card technology?

Smart phones can become membership cards and at least one NARM institution is using them, in a limited capacity, along with valid student identification cards. The digital NARM sticker will be incorporated into the second version of the app this summer.

Do you think the NARM guidelines need to include language that addresses digital media or is the digital gold replica enough for NARM identification purposes?

Your feedback is greatly appreciated! Please send an email to [narmdirector@gmail.com](mailto:narmdirector@gmail.com) with your thoughts.
